CLINICAL EXPERIENCE

Advanced Trainee (Fourth Year)

August 2016 – Anticipated Completion: June 2017
Indiana State University Student Counseling Center
 Supervisor: Dr. Kenneth Chew, Psy.D., HSPP

- Treated young adult clients suffering from psychological, emotional, and behavioral issues of varying severity and length from both short-term and long-term modalities.
- Conducted triage and intake appointments. Managed clients presenting with an immediate crisis.
- Primary presenting issues included: anxiety, depression, anger, trauma, recurrent relational problems, and personality disorders.
- Depending on the client's need, approaches used included: client-centered, cognitive-behavioral therapy, relational gestalt therapy, and psychodynamic psychotherapy (object relations or self-psychology).
- Supervised a master's level student counselor.
- Mentored a second-year doctoral level student counselor.
- Co-facilitated a weekly group supervision meeting.

Curriculum Vitae
 Patrick A. Roberts, M.A.
 Match Number: 21035

Mental Health Therapist & Test Administrator

August 2016 – Anticipated End: July 2017

Meridian Psychological Associates, P.C.

Supervisor: Dr. Jason Hankee, Psy.D., HSPP
 (See Below)

Doctoral Practicum Student (Third Year)

August 2015 – July 2016

Meridian Psychological Associates, P.C.

Supervisor: Dr. Jason Hankee, Psy.D., HSPP

- Administered numerous personality, intelligence, achievement, and neuropsychological tests to clients ranging in age, gender, sexual orientation, socioeconomic status, religious affiliation, ethnicity, race, and presenting concern.
- Interpreted and integrated tests results.
- Wrote comprehensive psychological reports using data from clinical interviews and psychological tests.
- Conducted long-term psychodynamic psychotherapy with two middle-aged clients having extensive trauma histories and long-standing personality issues.
- Tests administered include: Barkley ADHD forms, Beery-Buktenica Developmental Test of Visual Motor Integration, Conners Continuous Performance Test 3rd Edition (CPT-III), Conners Auditory Test of Attention (CATA), Conners self-report forms, Draw-A-Person, Incomplete Sentences Blank, Millon Clinical Multiaxial Inventory – III (MCMI-III) and MCMI-IV, Millon Adolescent Clinical Inventory (MACI), Millon Pre-Adolescent Clinical Inventory (M-PACI), Minnesota Multiphasic Personality Inventory – 2 (MMPI-2) and MMPI-2-RF, Minnesota Multiphasic Personality Inventory – Adolescent (MMPI-A), Rorschach Inkblot Test, Thematic Apperception Test (TAT), Trails A and Trails B, Wechsler Adult Intelligence Scales – IV (WAIS-IV), Wechsler Intelligence Scale for Children – IV (WISC-IV) and WISC-V, and Wechsler Memory Scales – IV (WMS-IV).

Doctoral Practicum Student (Second Year)

August 2014 – July 2015

Indiana University – Purdue University, Indianapolis (IUPUI) Counseling & Psychological Services

Supervisor: Dr. Steve Baughman, Psy.D., HSPP (January 2015 – July 2015)

Supervisor: Dr. Ciara Lewis, Psy.D., HSPP (August 2014 – January 2015)

- Conducted approximately two intake interviews per week for a wide range of clients.
- Fostered individual counseling relationships.
- Conceptualized clients from a range of orientations, including: psychodynamic theory, gestalt theory, client-centered theory, and mindfulness-based psychotherapy. Treated clients from a gestalt, object relations, self-psychology, or mindfulness-based perspective.

Curriculum Vitae
 Patrick A. Roberts, M.A.
 Match Number: 21035

Master's Practicum Student

August 2012 – July 2013

Phoenix Associates of Hancock County, LLC.

Supervisor: Douglas C. Keister, LMHC, LCAC

- Managed and conducted individual therapy with individuals having a substance use disorder and/or a comorbid psychiatric disorder.
- Utilized various modalities and approaches in managing clients having varying substance use disorders or legal offenses. Depending on the client's need, approaches used included: relapse prevention, cognitive-behavioral therapy, mindfulness-based psychotherapy, psychodynamic psychotherapy, and client-centered therapy.

SUPERVISORY EXPERIENCE

Secondary Supervisor to Practicum Students

August 2016 – Anticipated Completion: June 2017

Indiana State University Student Counseling Center

- Provided supervision, from a developmental perspective, to one master's level student counselor.
- Mentored one doctor level student counselor.
- Co-facilitated a weekly group supervision meeting consisting of 11 student counselors.

RESEARCH EXPERIENCE

Dissertation Research

August 2013 – Anticipated Completion: July 2017

Proposal Approved: July 2016

University of Indianapolis (Indianapolis, IN)

- Study title: Reconceptualizing Relationships in a World of Communication Objects and Narcissistic Processes.
- This dissertation utilizes object relations theory, self-psychology, and gestalt theory to develop a conceptualization of smartphones as a special type of psychological object that pulls for unconscious narcissistic processes. The project examines how smartphones, with a particular object usage, have contributed to changes in our experience of being in relationship and how we define those relationships.
- This project aims to contribute insight into the current nature of our relationships so that we can improve our interpersonal, therapeutic, and societal connections.

Undergraduate Honors Research Project

January 2009 – April 2010

Curriculum Vitae

Patrick A. Roberts, M.A.

Match Number: 21035

Purdue University (West Lafayette, IN)

- Study title: The Effects of Exogenous Anandamide on Food Intake.
- Developed, managed, and ran a pilot study investigating the effects of exogenously administered doses of anandamide on the food intake of rats.
- Hypothesized that an exogenously administered dose of anandamide would increase food intake in food deprived rats. The final experiment was to test this hypothesis on rats exposed to the Activity-Based Anorexia (ABA) model. The goal was to curb weight loss observed in the ABA model.

Research Assistant

January 2008 – December 2008

Purdue University (West Lafayette, IN)

- Oversaw student volunteers participating in an experiment looking at the effects of an individual's perception of hole size on golf-putting success and, vice versa, the effects of an individual's success on their perception of hole size.
- Logged research data and assisted with the maintenance of confidential files.

CONTINUING EDUCATION**Gestalt Trainee**

January 2014 – November 2016

Indianapolis Gestalt Institute

Trainer: Ann Bowman, APRN, BC, LMHC

Trainer: Charlie Bowman, MS, LCSW, LMFT

- Applied theory and technique, learned in didactic trainings, to role-play scenarios.
- Participated in large and small group experiential work with the intent of self and professional development.
